Amazing fossils

Everything must go just right for a well preserved fossil to form.

Complete the maze by choosing the way most likely to make a fossil. Some paths are less likely; you'll need to turn around and choose another way.

BEGIN

52 million years ago an animal dies

OR

on land OR in Fossil Lake.

END

Psst! This is only one way to make a fossil!

Fossil is studied and displayed.

Fossil DISCOVERED!

That is not likely to form a fossil.

Mud changes to rock. Remains turn into fossil... OR erode away.

Turn around and try another way.

MILLIONS OF YEARS PASS

Remains are buried by layers of mud... OR Remains are eaten by scavengers.

Fossil is carefully prepared.. OR accidentally destroyed.
